Eric,

Yes, the old date has been canceled. The new date for the PP meeting has not been decided yet. I will let you know.

The changes are not dramatic. We got a comment that we need to be plainly show the risk from the sediments in the boat slip and marsh area. We got another comment about being more specific about the GW technology selected for the GW.

Just so I'm clear and can inform mgmt., the public meeting is cancelled but you plan to reschedule in Wilmington in mid-April? Can you advise on nature of the 'changes'? i.e., are they material and if so, regarding what part of the PP?

Eric,

I'm sorry to say we will not be ready for the March 22nd Proposed Plan meeting. I had a meeting with HQ and my management in Atlanta and had to do some changes to the Proposed Plan. We are working on those changes right now. We are aiming for a PP meeting date of mid-April now. Sorry I didn't tell you earlier. I will definitely let you know of the date of the PP meeting and send you a copy of it. Thanks!

Hi Pete, any update? I haven't seen a public notice/release or the Proposed Plan. Just checking in. I will not be available on the 22nd for the meeting, but am asking Mr. DiZinno to go as our representative to capture any questions/comments submitted that Phillips may need to address later.

I have to brief my management on the Proposed Plan on February 28th. I imagine we will release it as a living document and start the Proposed Plan comment period the week of March 5th.
